REQUEST FOR CORRECTED FILING RECEIPT
FOR UTILITY APPLICATION

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

We hereby request that the following items of information be deleted from the Updated Filing Receipt for the subject application received in this office on May 24, 2004.

An error/inconsistency in priority data exists in that the above referenced application is related, but does not claim the benefit of, the applications as listed on the Updated Filing Receipt.

The errors and corrections appear below.

Please delete all the references which claim benefit, as listed below the subheading "Domestic Priority data as claimed by applicant".

10/698,969

-2-

Enclosed are copies of the Filing Receipt with changes noted in red and a copy of the first page of the specification showing Related Applications only.

Pursuant to instructions in the February 29, 2000 O.G., we hereby request that the errors which are identified above be corrected in the captioned application to which this request for correction is directed. It is understood that the Patent Office will issue an automatically-generated, corrected Filing Receipt in this and, if applicable, any other affected applications.

Respectfully submitted,

HAMILTON, BROOK, SMITH & REYNOLDS, P.C.

UPDATED FILING RECEIPT

Date Mailed 05/21/2004

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Filing Receipt Corrections, facsimile number 703-746-9195. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

Title

Method and apparatus for remote opening of a tailgate

Preliminary Class

296

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)), the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

METHOD AND APPARATUS FOR REMOTE OPENING OF A TAILGATE

RELATED APPLICATIONS

This application is related to U.S. Application No. 10/417,414, filed April 15, 2003; U.S. Application No. 10/121,747, filed April 12, 2002; U.S. Provisional Application No. 60/290,817, filed June 4, 2001; U.S. Provisional Application No. 60/490,883, filed July 30, 2003; and U.S. Provisional Application No. 60/509,654, filed October 9, 2003, the entire teachings of which are herein incorporated by reference.

BACKGROUND OF THE INVENTION

10 Electro-mechanical actuators are commonly used to unlatch doors in cars that have been styled to cover up the outside door handles. In the styling trade they are known as "poppers", and their primary purpose is to achieve a sleek appearance by eliminating the outside door handles. Their application to the tailgate of a pickup truck has been limited due to the resulting crash opening of the tailgate. Unlike the doors of a

15 car, which are hinged vertically, tailgates are hinged horizontally along the bottom edge. Once a car door is unlatched, the door merely cracks open and remains in the cracked position until it is fully opened or closed manually. Once a tailgate is unlatched however, the spring loaded latch bolts flip it out, and gravity then pulls to the fully open position. Due to the heavy weight of the tailgate, typically exceeding 50 pounds, the

20 ensuing crash is quite violent, like a drop hammer in nature, prone to damaging the truck, and potentially lethal to any bystander, child or pet.
